**Ghana
Chamber
of Mines**

Welcome from the Ghana Chamber of Mines

The annual West African Mining and Power Conference & Exhibition (WAMPOC/WAMPEX) is finally here again and the Ghana Chamber of Mines is pleased to partner with this all-important mining and power conference and exhibition in the sub-region.

WAMPOC/WAMPEX is an international networking Conference and Exhibition for the mining and power industry in West Africa that pools together captains of the mining and power companies, West Africa Ministers for mining and power, international and local investors, NGOs, researchers, and traditional leaders.

This year's theme: **"Driving sustaining investment opportunities in West Africa"** will reinforce the need for businesses in the mining and power sectors to remain viable in the face of economic challenges whilst at the same time providing the hallmark for transformation of the sub-region.

WAMPOC/WAMPEX has provided a platform to introduce new suppliers, new technologies, and new techniques to West Africa's mining and power industries under the competent auspices of the Chamber. It has increasingly become Africa's main platform for thought leadership in deliberating deeply on both mining and power sector issues.

It is our expectation that the 2024 WAMPOC/WAMPEX will provide a unique opportunity for stakeholders to identify, showcase and benefit from sustainable models to improve business efficiency for steady growth in spite of prevailing bottlenecks.

We welcome you.

ABOUT THE ORGANISERS

dmg events

dmg events is a leading organiser of face-to-face events and a publisher of trade magazines.

We aim to positively impact the African economy and community by providing platforms for public and private sector professionals to connect and forge strong relationships that will drive the future of the African continent. In response to current times, dmgevents ensures digital access to credible content and connections for professionals unable to attend live events. dmgevents has a portfolio of 80 events managed across 11 offices worldwide with two of those offices based in South Africa.

The South African-based team organises 7 events in Africa, bringing together more than 30 000 professionals from the Construction, Coatings, Mining, Transport, Food & Beverage, Trade and Hospitality sectors.

Welcome to WAMPEX and WAMPOC 2024

It's my sincere pleasure to welcome you to the **17th edition of WAMPEX/WAMPOC**. Your presence here is greatly appreciated, and we're thrilled to have you join us for this momentous event.

On behalf of DMG Events and our partners Events & Projects International and the Ghana Chamber of Mines, we extend our warmest greetings and wishes for a prosperous and productive three days at the event.

We are thrilled to unite industry leaders, innovators, and stakeholders from across the region to delve into the latest advancements in the mining and power sectors. Also, to announce that this year's event marks 30 years since the first event and is the largest WAMPEX ever hosted, with over 150 exhibitors from +20 countries. We encourage you to make the most of your visit, by sourcing from thousands of products, networking with industry professionals from across the region and learning from one of the many workshops.

A heartfelt thank you to the Ministry of Land and Natural Resources, The Mineral Commission of Ghana, and The Energy Commission for their invaluable support over the last 30 years, which has been instrumental in ensuring the event's relevance to the mining and power sectors.

WAMPOC (West Africa's Mining and Power Conference) is the premier platform for innovation, collaboration, and expertise exchange for the mining and power sectors. The conference sessions will feature industry experts, thought leaders, and policymakers engaging in insightful discussions on critical topics.

Don't miss out on our WAMPEX Learning Academy's free to attend technical workshops, where leading industry professionals will share cutting-edge technologies and industry insights. We encourage you to mark your calendars for those workshops of interest.

To all WAMPEX and WAMPOC 2024 participants, we wish you a highly valuable and successful event. Let's move forward together towards a sustainable and prosperous future for West Africa's mining and power industries!

Adele Tolken

The Delegation of German Industry and Commerce in Ghana is part of the worldwide AHK German Chamber Network. As a Delegation, it is the preliminary stage for a bilateral Chamber of Commerce.

The Delegation is closely connected to the Chambers of Industry and Commerce (IHKs) in Germany. Together, they support German companies with promoting and extending their business relations to foreign countries. The umbrella organisation of the IHKs is the German Chamber of Commerce and Industry (DIHK), which also coordinates and supports the AHKs and Delegations. Furthermore, the cooperation with various German trade associations strengthens the link between AHKs and business markets.

Meet the 2024 Sponsors, Exhibitors, and Partners

Enabling the sustainable and efficient delivery of the natural resources essential to create a better future for our world.

Metals power the world. They are the backbone of our modern society. And metals are vital for a sustainable future too – copper for decarbonising and electrifying transport; lithium, nickel and cobalt for batteries and energy storage; iron and aluminium for the infrastructure to support widespread electrification.

Today, much of the metal used each year is extracted from our earth, and that is set to continue for decades to come. That's why our customers in the mining industry are transforming to more sustainable practices and striving for Net Zero emissions.

www.global.weir

WG Africa is an industrial solution provider with engineering, trading, and manufacturing. The company is a technology-independent vendor and supplier of industrial equipments and turn key projects.

Our core business focuses on the producing and supplying of spare parts, single machinery, individual equipment packages, and complete turnkey projects. Our customers appreciate our willingness to assume the responsibility for the engineering, procurement and logistic of industrial equipments.

www.wg-africa.com
